

JOHN SCHLUETER

As Principal of Project Management, John has an eye toward strategic organizational goals and long-term planning needs. He provides innovative yet appropriate and implementable designs and as an engaged leader, he ensures projects have the full resources of the firm necessary for success, with the goal of exceeding client expectations.

For more than 33 years, John has led and supported our project teams with his thoroughness in obtaining permit approval, construction documentation, building code analysis and technical document review - all invaluable to the success of a project.

He communicates well with contractors and consultants to problem-solve during construction, with emphasis on quality control. John has worked on numerous water infiltration projects and deploys a variety of options for successful re-mediation at these complex sites.

A selection of John's recent projects include:

- The Community Bank, Springtown, TX
Ground-up architecture and Interior Design with Drive-thru. Complex site
- 24-Hour Check Processing Center
Approx. 15,000 USF
- Dove Dentistry, Allen, TX
Family Dental Practice
Approx. 6,500 SF
- Multiple Water Infiltration Projects
in TX

“

... your attention to detail, the ability to anticipate our needs as it relates to our business, your prompt responses, and clear lines of communication, and your ability to design and plan while always maintaining our budget has made all of our projects go smoothly from start to completion.
